We are selling an affordable, newly renovated house with stunning sunset and sea views, located on Camotes Island, Cebu. Now offered at only ₱2.5 million (approximately US\$41,000).

For this amount of money, it is impossible to buy even the smallest studio apartment in Europe or America, but here you have the opportunity to own a fenced, romantic house with a garden and a stunning sea view.

The property sits on a fully fenced 205-square-meter lot and features a 60-square-meter floor area.

The property also includes a parking area, making it convenient for business operations or events. Surrounding the property are numerous fruit-bearing trees, including mangoes, avocados, and bananas, adding natural charm and potential for additional income.
